

My company doesn't have BIMcollab yet

You can buy individual licenses linked to an email address. You don't need to have BIMcollab cloud, you can still get started right away. If your company wants to purchase BIMcollab cloud at a later date, no problem. We will add all single-user licenses to the company space for flexible management..

My company have BIMcollab

It is best to ask the administrator to add ZOOM licenses to the space. Licenses can be flexibly assigned to multiple users or even via license pools in the Connected and Enterprise plans.
